Shipping & Nigerian Heritage

Who we are

Founded in 2013, Enassis Shipping is a privately owned company with headquarters in Athens, Greece.

Being a private company means we are flexible and customer oriented. Higher management focus on each individual client enables us to provide tailor made and cost effective solutions:

- Vertically integrated operator and manager,
- Excellent knowledge of international shipping markets, as well as in-depth local knowledge of niche markets in which we operate.

The group has a deep knowledge of all African markets in clean and dirty petroleum products.

PIRE AUS

Headquarters: Enassis Shipping Ltd.
Agiou Dimitriou Str., 185-46 Athens

Lagos

Lagos Port is a multipurpose port capable of handling all cargo and the largest port in Nigeria. It has many private terminals with expert management that have international experience in port operation. Lagos Port is registered as an ISPS Certified Port facility with the International Maritime Organization.

Warri

Warri Port is a tidal port, along coastal area of the country. As a result, the high water for the day determines when a vessel can cross the Escravos Bar and be able to safely moor alongside Warri Berth. A vessel may transit the Warri Channel in a day or two, depending on the time of high water.

Oghara

Oghara is a commercial town in Delta State with the major pan ocean flow station and Gas Plant, Pamol, Presco, JK etc. It is also an oil producing community and houses more than 300,000,000 litre of petroleum products storage tanks belonging to different petroleum marketing companies.

Port Harcourt

Port Harcourt, the capital of Rivers State, is the second largest port of Nigeria. It is the center of the Nigerian oil economy. It lies along the Bonny River and is located in the Niger Delta. Port Harcourt has multiple terminals and is operating under ISPS Security Level 1.

Calabar

Calabar Port is a general Cargo/Container Port / Multi-Purpose Port situated on the right bank of the Calabar River. The main three (3) terminals of Calabar Port are operated by world class Terminal Operators; namely: ECM Terminal Ltd, INTELS Nigeria Ltd and Shoreline Logistics.

A Nigerian operating base spread throughout five (5) cities of the countries major ports of Lagos, Warri, Oghara, Port Harcourt and Calabar.

Values

Enassis shipping works with companies that range from key market leaders to global giants within the industry.

Ethical business practices fused with a stringent set of guiding principles have helped us garner confidence and trust amongst the local population in which we conduct our business. Integrity and common values have also been the backbone in successfully establishing ourselves within the different markets and across a variety of other markets in which our daily operations are conducted.

your cargo
safely and
on time*

Commodity Movers

The group currently moves 2,700,000 metric tonnes annually on its current managed fleet of five (5) vessels ranging from 27,000 DWT- 41,000 DWT for its local clients.

Furthermore, expanding with storage vessels across various coasts worldwide for quicker accessibility to cargo for our clients at all times in both clean petroleum products and dirty petroleum products.

Efficiency

As a cargo of refined oil travels the globe to arrive offshore West Africa.
The role of transporting oil the last 150 nautical miles is the most complex part of the entire trade.

The services in which we have created has improved the efficiency and speed of our clients shipping and logistic needs from start to finish. Our company is involved from shipping the imported products Internationally to delivering the products at customers local shore tanks and facilities. Relieving suppliers, charterers and receivers of extra costs and time.
